

Travel, transport and education

Mahdi Modarres

Travel and transport major keywords in writing

- **Go on holiday in your own country Vs. travel abroad on holiday.**
- **Railway systems Vs. roads.**
- **Reasons for travelling.**

Reasons behind travelling

Reasons behind travelling	Problems with travelling
<ul style="list-style-type: none">• Explore the world → learn more when you spend your money on experiences rather than on material things.• Get out of a mundane lifestyle → get out of your bubble → think in a healthy way and make decisions.• Travel connects us with nature and culture → meet people along the way see wonders of the world and appreciate the nature.	<ul style="list-style-type: none">• Mental images are usually nicer than the real place/monument/country.

Railway Vs. Road

Railway systems	Roads
<p>Safer commuting experience → accidents and casualties are lower.</p> <p>More people and goods can be transported at a time.</p> <p>Shuttle trains can decrease growing traffic → provide more facilities for the government to cope with the growing population.</p>	<p>Cars and roads are still the most popular → road maintenance should be valued.</p>

Explore the world	Spend your money on experiences	Mundane lifestyle	Get out of your bubble	Wonders of the world
Appreciate nature	Mental images Sublime picture	Hobbies/ leisure	Commuting experience	Accidents and casualties are high
Shuttle trains are fast	Cope with growing population	Harmful to nature	?	?

Education keywords in writing

- **Unpaid community services being mandatory/compulsory.**
- **Learning facts Vs. learning practical skills.**
- **To study what you like Vs. to study science and technology**
- **Segregation in schools.**
- **Learning art and history.**

Unpaid community service in high school

Good	Bad
<ul style="list-style-type: none">• Organizations helping the poor can lead to a modern civilized community.	<ul style="list-style-type: none">• They are not mature enough to handle serious responsibilities (e.g. the sick)• They have to study a lot → no time to take part in community programs.

Segregation in schools

Good	Bad
<ul style="list-style-type: none">• Communication skills will be better improved → they learn how to interact with the opposite sex.• Gender equality → equal opportunities for both sexes.	<ul style="list-style-type: none">• Fear of study distraction.

Learning facts Vs. practical skills

why	How to be fixed
<ul style="list-style-type: none">• Conventional method of teaching → a wide perception to master theory → a lot of reading, learning and writing. E.g. a degree in physics or engineering but they cannot change bulbs.• Practical skills tend to be neglected → No equal proportion of theory and practical classes in current curriculum.	<ul style="list-style-type: none">• Hands-on experiments are needed → teachers need to be educated on the practical subject.• A larger capital is needed for buying the equipment and building the facilities.

Education

Compulsory community service/ program	Civilized community	Take part in	Mature	Conventional method of teaching
A wide perception	Curriculum Equal proportion of theory and practice	Neglect	Hands-on experiences/exp eriments	Capital
Balance/ imbalance	Curriculum	?	?	?
